

BRYAN BOLIVAR

P. Eng, VICE PRESIDENT, SENIOR PROJECT ENGINEER

Bryan is a partner with Skelton Brumwell and Associates and has over 22 years of experience in Engineering since graduating from the Technical University of Nova Scotia. He joined Skelton Brumwell in 1998, and became a Partner in 2010. As a Project Manager, he has played a key role in Stormwater Management and Low Impact Development design. His work spans various projects types from Aggregate Sites, Industrial & Residential Subdivisions, and Site Plans (from building lots to large public recreational/ institutional/commercial) projects. His scope of experience includes design of municipal water, sanitary and storm servicing and site grading.

Bryan has been the lead consultant on design projects and has worked as part of an interdisciplinary team with other professionals to successfully bring together a complex scope of design work to meet the clients end goals. Bryan’s work normally includes applying for and receiving approval from outside agencies at the local Municipal, Conservation Authority and Provincial level, including both the Ministry of Environment and Ministry of Natural Resources.
